Instructions:

1) Download and install REAPER, if you have not already, from https://eur01.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.reaper.fm%2Fdownload.php&data=05%7C02%7CAchim.BORNHOEFT%40moz.ac.at%7Cd0e3a32c9042480ac7f608dd05718176%7C59941483affb4e42a4e51da27c40254c%7C0%7C0%7C638672707365771268%7CUnknown%7CTWFpbGZsb3d8eyJFbXB0eU1hcGkiOnRydWUsIlYiOiIwLjAuMDAwMCIsIlAiOiJXaW4zMiIsIkFOIjoiTWFpbCIsIldUIjoyfQ%3D%3D%7C80000%7C%7C%7C&sdata=T0oQuHB6x%2BEmfLrAspBelDkEkQarZmb5yfpA9QgOdPo%3D&reserved=0

2) Select the license key above, including both "--- cut ---" lines.

3) Copy the text (using Ctrl+C on Windows, Cmd+C on macOS, or by choosing "Copy" from your mail program's Edit menu).

4) Run REAPER, or REAPER is already running, open the Help menu and choose "About REAPER.".

5) If you successfully selected and copied the license text, REAPER will ask you if you wish to import the license.

6) If REAPER does not prompt to import the license, check to make sure that the license text is in the clipboard. You
can do this by running Notepad or TextEdit, and pasting the license key text into it. Once the text is in the
clipboard, closing and re-opening REAPER's about box will cause REAPER to look for the license key again.

If you have trouble with above method, you can also import the license key (.rk) file directly. Your key file is attached to this email (named reaper-license.rk). Please use the following steps:

1) Save the attached file (reaper-license.rk) to a path on your computer, such as the Desktop.

2) Run REAPER, go to the REAPER about box, "Purchase" tab, and select "Import license key..."

3) Browse to find the saved .rk file and choose "Open". The license file should be imported.

If you have trouble with both of these methods, you can reply to this message.
